## State Income Tax Withholding Changes for 2023

North Dakota – The state published an update to the Income Tax and Withholding Rates and Instructions document For Wages Paid in 2023. The revision date on the document was July 2023. The state clarified that while the new withholding rates are effective for all of 2023, it does not expect employers to make retroactive withholding adjustments. The Tax Tables to be used for employees whose most recent Form W-4 was from before 2020 changed for both Single and Married filing statuses – and now match the tables to be used for employees whose most recent Form W-4 was from 2020 and later. There are no other changes to the percentage method formula. Previously, special programming was in effect when these tables did not match to calculate the tax correctly. That special programming will be removed.

## State Income Tax Withholding Changes for 2024

- Kentucky – The Standard Deduction increases to \$3,160.00 for 2024. The flat tax decreases from 4.5% to 4.0%. There are no other changes to the percentage method formula.
- California –
  - The Low Income Exemption amount-Single or Married with 0 or 1 Allowance changes to \$17,769 (was \$17,252 in 2023).
  - The Low Income Exemption amount-Married with 2 or more Allowances, or Head of Household changes to \$35,538 (was \$34,503 in 2023).
  - The Standard Deduction amount-Single or Married with 0 or 1 Allowance: \$5,363 (was \$5,202 in 2023).
  - The Standard Deduction amount-Married with 2 or more Allowances, or Head of Household: \$10,726 (was \$10,404 in 2023).
  - The State Secondary Exemptions/Number of Additional Allowances for Estimated Deductions is \$1,000 annually for each allowance in 2024 (unchanged from 2023).
  - The State Exemptions/Annual Tax credit changes to \$158.40 for 2024 (was \$154.00 in 2023).
  - There are Tax Table changes also.
- Arkansas – There are changes for the calculation of Arkansas State Income Tax effective January 1, 2024. These include programming changes and tax table changes. The Standard Deduction increases from \$2,270 to \$2,340.00. The formula does not use the percentage method in the traditional way, so please see the Taxes document in Help for more information

## Updated Manager Services Functions

This section describes updated functions in Manager Services.

### Quarterly State Income Tax Report

The state of Alabama will require – for 2023 – the Amount of Overtime Wages paid in 2023 for Alabama Employees – and the number of employees who received such overtime. They also require the same information for 2024 – based on how often you file state taxes in Alabama – Monthly or Quarterly. So the data will be provided in this report for Month to Date, Quarter to Date, and Year to Date totals.

Previous updates made to the application were to identify Overtime Pay Types by Pay Code in the Manager Services function Pay Code Definition / Pay Process Control. This report uses that flag to identify the Pay Codes whose totals will appear on this report for the Alabama requirement.

This report has been programmed so that when running the report as follows – the totals required from the state will appear at the end of the report.

For 2023 annual data:

- 1) At the Legal Entity field, click on the down-arrow and select the one you want to work with.
- 2) At the State/Province field, click on the down-arrow and select the state you want to work with. The information about Overtime is only required for Alabama.
- 3) Leave the Payroll Processing Group field at the default selection of \*no value.
- 4) Check the Break By Payroll Processing Group checkbox.
- 5) At the Tax Year field – select 2023.
- 6) At the Month field – select December.
- 7) Leave the Summary checkbox unchecked.
- 8) If you don't want to use the default name, go to the Report ID field and enter a name that will uniquely identify your report. If two or more reports are given the same name by the same user, the only way to distinguish them is by the time and date they were created. This field accepts up to 25 alphanumeric characters.
- 9) Click on Submit to create the report.

### Quarterly State Income Tax Report

\* = Required

**Selection:**

\*Legal Entity:

State/Province:

Payroll Processing Group:

Break By Payroll Processing Group:

\*Tax Year:

Month:

## W-2 Data Generation - Forms

For employees who have contributed to Colorado Family and Medical Leave Insurance program, the label on the employee contribution amount that will appear in Box 14 has been programmed to be specifically FAMLFI as required by the state. This still requires that Colorado FLI Tax as been added in the W-2 Additional State Taxes function, which is completed by People Guru for Outsource customers.

## **W-2 History**

The US and Puerto Rico W-2 Forms in this function will be updated to the Tax Year 2023 version of the forms and instructions.

## Updated Employee Self Service Functions

This section describes updated functions in Employee Self Service.

### W-2 History

The US and Puerto Rico W-2 Forms in this function will be updated to the Tax Year 2023 version of the forms and instructions.
